Education

Frontend Developer
IT-Högskolan
2022 - 2024

HTML and CSS, Native JavaScript, JavaScript with frameworks,
Agile development, CMS, UX and UI design, Full-stack development,
Communication with stakeholders, group dynamics & project management

Economics and Administration
Lernia
2012 – 2013

Accounting, Accounts Receivable, Budgeting, Payments, Payroll Administration

Expertise

Frontend Development

UI/UX Design

Web Optimization

Backend

Data Visualization

Language

Albanian

English

Swedish

Profile

Thorough and well-organized frontend developer, specializing in scalable, high-performance UIs, modern web architectures, and seamless state management.

Technical Skills

- Frontend Development: React, Vue, Next.js, TypeScript, JavaScript (ES6+), JSX, CSS-in-JS, Tailwind, Styled Components, SASS, BEM
- State Management & Performance Optimization: Redux Toolkit, Zustand, Context API, React Query, Recoil, RSC (React Server Components), Lazy Loading, Memoization, Web Workers
- API Integration & Backend Interaction: RESTful APIs, GraphQL (Apollo, Relay), Firebase (Firestore, Authentication, Realtime Database), WebSockets, Axios, tRPC
- Rendering & Performance: Server-Side Rendering (SSR), Static Site Generation (SSG), Progressive Web Apps (PWA), Code Splitting, Edge Functions, Image Optimization (Next.js Image), Lazy Hydration
- UI/UX & Design Systems: Material UI, Chakra UI, Ant Design, Component Libraries, Figma to Code Conversion, Microinteractions, Animation (Framer Motion, GSAP)
- DevOps, CI/CD & Deployment: Git, GitHub Actions, Azure DevOps, Vercel, Netlify, Docker, Kubernetes, Webpack, Babel, ESLint, Prettier
- Testing & Quality Assurance: Jest, React Testing Library, Cypress, Playwright, End-to-End (E2E) Testing, Unit Testing, Integration Testing
- Work Methodologies & Tools: Agile, Scrum, Kanban, Jira, Confluence, CI/CD Pipelines, TDD (Test-Driven Development), BDD (Behavior-Driven Development)

Work Experience

JAN–MAJ 2024

Systra AB
Frontend developer - 2st Internship

- Scaled enterprise-grade frontend architecture, implementing code splitting, dynamic imports, and micro frontends
- Engineered data visualization dashboards with D3.js, Recharts, and AG Grid, integrating real-time backend streams
- Enhanced Dark Mode support using CSS variables, prefers-color-scheme, and dynamic theming
- Implemented complex form validation with React Hook Form, Yup, and Zod, improving UX and accessibility
- Designed efficient state management solutions, leveraging Redux Toolkit, Zustand, and Recoil
- Improved API performance via batching, caching (SWR, Apollo Client), and WebSockets for real-time data sync
- Worked with CI/CD automation in Azure DevOps, optimizing deployment pipelines with Docker, Kubernetes, and Terraform
- Debugged and optimized frontend-backend interactions, handling CORS, JWT authentication, and GraphQL queries

AUG–OKT 2023

Systra AB
Frontend developer - 1st Internship

- Developed high-performance React components with TypeScript, hooks (useState, useEffect, useRef), and Context API
- Refactored legacy POC frontend into a scalable, modular architecture, optimizing performance and maintainability
- Implemented API-driven data flows, utilizing RESTful endpoints, Axios, and async state management (React Query, SWR)
- Designed responsive, WCAG-compliant UI components using CSS-in-JS (Styled Components, Emotion) and Tailwind CSS
- Enhanced rendering efficiency with React.memo, useMemo, and lazy loading (React.lazy, Suspense)
- Integrated Azure DevOps workflows, handled Git branching strategies (GitFlow, PR reviews, rebase workflows)
- Developed state-driven, interactive UI components using React Spring and Framer Motion
- Optimized frontend bundling and tree shaking via Webpack, Babel, and ESBuild

2013 NOW

Åhléns City
Beauty Consultant

- Providing advice on perfume and beauty, tailored to the customer's needs.
- Creating a positive customer experience through personalized service.
- Using product knowledge to offer relevant recommendations.
- Working towards achieving sales goals and increasing customer satisfaction.
